

# ROBERT W. J. DYSON

FULL STACK ENGINEER • Y COMBINATOR ALUM

## EXPERIENCE

### CHIEF TECHNOLOGY OFFICER, CO-FOUNDER

*Skilled.com – Miami, FL*

2018 - 2019

I joined Skilled, a booking software platform for in-person classes, as chief technology officer and co-founder. I implemented an agile development process, company-wide strategy and KPIs, and managed development and product.

### CHIEF TECHNOLOGY OFFICER, CO-FOUNDER

*Willing.com – Miami, FL*

2015 - 2017

I co-founded Willing, where we built a DIY estate planning web application, and participated in the Y Combinator startup accelerator in the Summer of 2015. We grew the company to be the world's largest provider of wills.

### MUSIC PRODUCER, SOUND ENGINEER

*Wizkid Sound – Atlanta, GA*

2007 - 2015

I recorded, produced, and mixed projects at my project recording facility. I focused on streamlining the recording process, and providing service beyond the recording process, from marketing and small-scale distribution to live-streaming concerts.

### TECHNICAL PROJECT MANAGER

*Pardot (now part of Salesforce) – Atlanta, GA*

2011 - 2012

I led special technical projects for both internal and external use for a B2B marketing automation company. I focused on internal process improvement, video marketing content creation and production, and developing internal and client-facing tools.

### SOFTWARE ENGINEER

*Mobilization Labs – Atlanta, GA*

2007 - 2011

I led the integration team for a SaaS web application company, which helped organizations mobilize their supporters and build effective marketing plans. I consulted with clients to determine requirements and built out integrations.
